Presidents Report

We were sorry to hear about the passing of Marie Ambrose, she and her husband Mick have been members for many years and we had many run/meetings at their property over the years. Had a lovely run/meeting at Martina & Robert O'Sullivan's property at Gilmore, the weather was perfect & we had a great roll up of members, thanks

Martina & Bob. We welcome 2 new members Stephen Mackintosh and Wayne Thatcher, we hope you enjoy your time with our club.

Our club is hosting the South West Get-together Oct 19th, so please bring something to donate to put into a hamper to raffle on the day and also something for morning tea for our visitors. Thanks.

Safe & Happy Motoring - Lesley

THE DINKUM OIL # 28

A drop from the Council of Heritage Motor Clubs to keep you going

A few drops of information for your members ...

- CHMC Annual general Meeting will be held at Goulburn Saturday 26th October. Please make every effort to have delegates present as this is our main business meeting.
- Next year 2025 is fast approaching and entry forms for the annual rally are now available. Dubbo Antique Automobile Club is the host club for 2025 and we are assured of a most enjoyable rally. Please complete and forward your entries ASAP.
- Membership renewals will be sent to you soon. The system of completing the information on the JotForm provided worked well last year, so we are hoping all clubs can use this system as it saves a lot of time for those committee members who are responsible for collating all club's details.
- Even though cheques are being phased out, the NAB has assured that for the time being (and into 2025 apparently) there is no restriction on their acceptance of cheques in payment of fees. However, it is more than acceptable to the Treasurer if your Club uses direct deposit when making payment of affiliation fees, ensuring that the Club initials are in the description for payee.

Also, for those clubs wishing to pay 2025 affiliation fees at the AGM, the Treasurer is more than willing to accept same (cheque or cash) and provide a receipt.

- We are yet to receive an application from any member club to host the 2026 annual rally. Please consider whether your club would like to take the opportunity to showcase your town and area to people from all over NSW. To organise this event takes a fair amount of time so it would be ideal to communicate any expression of interest very soon.

More information about this, and other items of interest, can be found on Council's website:

If Some people want to rely solely on digital financial transactions, let them.

But don't take away cash for the rest of us.
My \$50 Note can't be hacked if I am robbed; I lose \$50, NOT my entire life savings. If my \$50 Note is accidentally immersed in water, it still works. My \$50 Note doesn't need batteries, it can't be "out of range" and it won't break if I drop it. If the system goes down,(like it does quite often), I can still use my note.

My \$50 note can be put into a charity box or given to a Homeless person. Sure I use my card sometimes for large purchases, but for everything else please leave me with my Options of Cash.....

It Simplifies Life. (Thanks Gail)

The Raffle was drawn by Micheal & much to the dismay of members it was won by the President

Editors Notes – It was sad to hear the passing of Marie Ambrose who had contributed many times especially with her humour to the Crankhandle. It's always good to get some positive feedback on the Crankhandle. The Job was set up by the previous editors especially Gail long term. Many members help out sending reports and interesting articles with the more members putting into the magazine the better it becomes especially in this digital age. So thanks to all.

If I have missed something, just let me know and I may miss it again.

Keep safe and be well – Steven (ed.)

What's Happening next

Well all that depends on members ideas.

Events or locations to visit for a day, a weekend or more and as we are all a bit different, some more than others it could be

related to Car, Train, Steam engine, Planes, Boats, Gardens, Festivals Architect/historic buildings, concerts or just for a coffee run, No idea is too silly maybe. So put a little thought as it doesn't need to be tomorrow and can be planned well into the future.

It is always more fun in a group.

Good roll up Sunday in Gilmore

Restoration Part 2...The fun starts

Prior to the fires burning Bills supermarket, which supplied many parts to vehicles of GAMC members over the years, David purchased a container at Fisher bodyworks specially to store all the goodies in Bills shed

Well, Bill and Kerry hopped into dismantling like bees in a honeypot. The floor of the workshop quickly disappeared under bits of Land rover parts.

First was the motor (engine). Bills motto is "its gotta run before we do anything else"

The men dragged out a battery, tipped petrol down the carby. Well to everyone's surprise the old girl done a bit of singing then decided to give the men a thrill and danced for them. It was great to see the smiles on their faces. But the smiles soon disappeared in the cloud of smoke that engulfed the workshop

So, under 2" of old dirt and oil the boys found enough nuts and bolts to find out how to pull the motor out. Now British manufactures are known to use more nuts and bolts than any other car maker. But luckily lots were missing. Those tight ones were the worry. But not to our intrepid mechanics

For every part that need to be replaced Bill seemed to find it in the container. There were rings of every sort (except those for my fingers) strewn across the bench. The crank was okay, that's something to do with a piston, not me thank goodness. I just kept taking pictures.

Eventually some parts needed to be purchased. The most expensive was the rear engine seal. The bell housing (not the church one) was broken and was welded up by one of Daves employees.

Pom learnt how to do this in England before he came to work for Dave. He done a great job. Finally all these bibs and bobs seemed to join together on the engine stand. Then the battery, bucket for the water and more petrol for the carby and away the old girl danced again. The old girls' heart was placed back into her chassis

The less exciting part started then. The radiator need repairing. Brakes were needed to slow the old girl down. I don't know why because I never had brakes every time I fed the cows at Kunama and another of Bills mottos was "the kids can learn to drive without brakes" *How times have changed.* David is hoping the old girl will teach his kids to drive and he wants the brakes to work.

That's all for now. Part 3 Dressing the old girl coming soon

Trip report - Wangaratta Vehicle Clubs 53rd Spring Rally .

The weekend of the 20/21/22 September Laraine and I met with 5 members of the WWVCC to travel to Wangaratta

for the yearly get-together of the Wangaratta Vehicle Clubs 53rd Spring Rally. This is the 2nd time we have attended this run and thoroughly

enjoyed the outing. All varieties of vehicles attend, and the committee do a great job of finding interesting places to visit.

Below - Bob & Di Smith and Laurie & Annie Taylor from Wagga Wagga with their Saab & Statesman.

This year we visited the biggest collection of steam engines I have seen. There were dozens of them. Most going , some restored to original and others on the to do list.

This is the collection of Robin Gibb (father) and his son Andrew and credit goes to them for saving this area of Australian history. It has been a mammoth effort collecting all the exhibits. Robin has all the equipment needed to put these monsters together again.

Left Bill checking out the giant wheel. Our vehicles were staged for display in decades from oldest veteran a 1914 Ford to a 1994 Bentley.

Our Mercedes fitted in nicely in the 1980s between 2 Rolls Royces , 1

Statesman, 1 Saab, 1 Commodore)and one other Mercedes. The category with the most entries was the veteran and vintage.

Many thanks to our WWV&V friends for arranging the weekend and for their company. Bill and Laraine
