## Conditional Registration

October 2016

Dear Member,

At the monthly general meeting held on 13<sup>th</sup> September 2016 the membership passed a motion resolving:

***We require all members to attend four (4) events to be eligible to maintain their vehicles on conditional registration. The committee have the right to issue exemptions.***

The committee will be implementing this by-law by requiring all members with vehicle(s) on conditional registration with the SCVCC as their primary club to attend & participate in at least 4 club events in the period between annual registration inspection days (ie. for the upcoming year, between November 2016 & November 2017).

For the purposes of this by-law, activities to be counted as “Events” are:

- Monthly general meetings;
- Club runs or outings printed in the Klaxon Events Calendar;

Activities not to be counted as “Events” are:

- Annual registration inspection days;
- Any private activity use for those participating in the log book trial;
- Any test runs or refuels for those not participating in the log book trial;

A log is being maintained to record member’s participation in events, so please ensure you record your name in the events book on club runs or the attendance book at monthly meetings.

If you have any questions or queries please contact a committee member.

2016/2017 Committee
